Recycling Collection Services

Recycling History

Our Recycling Services began as an environmentally conscious decision to keep its own waste out of landfills. After successfully increasing the amount of materials being recycled versus discarded, the service was extended to our customers and has since been developed into a division of the company entirely devoted to providing recycling solutions to its customers new and old.

Recycling Services

CMS Recycling Services specialize in:

- Industrial Plastics
- Environmentally Safe Disposal
- Secure and Cost-Effective Services
- Truckload and LTL Pickups
- Quickly with Low Minimums

Materials Accepted

The pictures below are examples of what CMS is interested in. If your material is not pictured please contact us for more specific recycling information.

- Industrial Plastics
- Steel Drums
- Pails, Buckets and Pallets
- Intermediate Bulk Containers (IBC)
- Plastic Film
- Super Saks
- More

Acceptance Requirements

CMS accepts materials in almost any condition as long as they are empty. All containers with **hazardous** residues require pre-approval of MSDSs and must be properly emptied and closed prior to pick-up. Containers with non-hazardous materials should be empty, or with an approved MSDS, we can arrange for material disposal at a reasonable cost to you.

Contact Us

We are excited to work with customers in developing the most beneficial recycling solutions possible.

Please contact us if you have any questions about these or any other recyclables you may generate. For states other than those listed below please call the customer service number.

Oregon & Washington
