Upward Pricing Pressures Mount!

West Coast Steel Mills continue to seek price hikes. For the past several months, we have been receiving increases that have become significant.

Other raw materials costs have also risen, as have costs related to production such as insurance, taxes and fees, as well as labor.

Myers/CMS is making every effort to avoid a cost increase, but we will not compromise on the safety or quality of our products. With your continued help, by allowing for additional lead times and by working with your Account Manager to ensure that your products are properly specified to your needs, we will work to keep any increases to an absolute minimum.

Please contact your Account Manager, our Client Services Center at 800.406.9377 or visit our website at www.myerscontainer.com for additional details.

**Sincerely,
James M. Bise, Jr.**
