Re: FDA and Kosher Certification of the bottles manufactured by IBC North America

To Whom It May Concern:

This is to certify that the bottles (fitted with the Eurovalve and a 6" lid) manufactured by IBC North America, Lawrenceville GA, are made of components that meet the requirements of the Food & Drug Administration for food contact applications.

They are also manufactured under Orthodox Rabbinical Supervision and are accordingly Kosher and Pareve and suitable for both cold and hot fill products. This certification is valid through April 30, 2006.

DISCLAIMER:

The packaging advice in this letter is intended for evaluation by our customer or fillers, and does not relieve the customer or filler of the ultimate responsibility for the determination and suitability of the appropriate container, and its limitations or applications.

It is the responsibility of the customer or filler to select the appropriate packaging for use or resale, based on all information at their disposal, including specific application, regulatory compliance, product compatibility, transport, storage, and material handling requirements.

Regulatory compliance for remanufacture, repair, or reuse of packaging is the responsibility of the reconditioner, customer and filler.

Refer to appropriate regulations for packaging filling, transport, and storage requirements with your specific product.
